As per our discussion, the website is not been converted to only show Rollabind in a 2nd place position. [www.printer.ca](http://www.printer.ca) is first and foremost and links to our corporate site. Also our corporate size will include a link to this site.

The main [www.printer.ca](http://www.printer.ca) site and it's shopping cart is for printed products and does not easily adapt to off the shelf products. This shopping cart is being custom built to handle a series of products in multiple colours and package quantities with the fastest response time possible.

Check it out again at [www.rollabind.ca/index.lasso](http://www.rollabind.ca/index.lasso) Please note once again, that the images will be replaced as soon as the product arrives and we can take our own pictures of the actual product(s). As the link is NOT public knowledge and is NOT being linked to from anywhere else, nobody can see it unless you know where to look.

Let me know if you approve the changes.

Thanks  
Hans
