Any word here ?

Also, what limitations are there on advertising the Rollabind Product and/or system. Can we use the image (clipart) of products and/or logo to promote to Consumers

In the terms it reads that the only limitation on the use of the images etc (I assume means the Logo also) is that we must advertise the retail price only. What is the retail price in Canada with the ever changing dollar. Any advertising or campaign that we launch MUST ensure that exposure points back at us to ensure we capture the highest sales potential possible. No use advertising and somebody else getting the credit.

Let me know.

Hans
